Weekly Media Monitor

Sep 28th, 2026 – Oct 4th, 2026

This week's major news updates in Pakistan's energy and climate sectors:

- The World Bank says Pakistan needs 565.7 billion dollars by 2035 to cut emissions 50 percent, citing a major climate finance gap and limited fiscal space.
- The federal government informed the IMF it will recover 110 billion rupees in provincial power arrears through NFC deductions.
- CPPA seeks 1.73 rupees/unit extra in October bills, adding 25 billion rupees due to costlier RLNG, coal and lower hydel/nuclear output.
- NEPRA proposed grid-sharing charges for high-rises with 500+ kVA transformers, and allowed industries up to 15 MW via multiple connections.
- Petrol rose 2.10 rupees/litre and HSD 30 paisa for Oct 3-5 to 392.76 rupees and 399.64 rupees, driven by higher import costs and IFEM
