

Weekly Media Monitor

June 2nd - June 08th, 2025

This week's major news updates in Pakistan's energy and climate sectors:

- ➡ The arrival of migratory birds in Sindh suffers a dramatic decline from 1.2 million in 2023 to about 545,000 in 2025 as drought and climate change degrade their habitats.
- ➡ In line with a requirement by the International Monetary Fund (IMF), the government hires an audit firm to resolve the 2.8 trillion rupees circular debt in the gas sector.
- ➡ A recent study reveals that Pakistan has imported solar PV panels of 17 gigawatts capacity in the ongoing financial year (2024-25).
