

Weekly Media Monitor

Feb 3rd - Feb 09th, 2025

This week's major news updates in Pakistan's energy sector include:

- ➔ The World Bank announced to lend Pakistan one billion US dollars for Dasu Hydropower Project's first stage. The project's costs have been rising due to delays in land acquisition, security problems and the depreciation of Pakistani rupee.
- ➔ Pakistan plans to renegotiate its Liquefied Natural Gas (LNG) supply deal with Qatar as the current agreement has become too costly for it to implement due to its ongoing economic crisis and excess power capacity.
- ➔ Prime Minister Shehbaz Sharif calls for increased grant-based financial support for developing nations to address climate change.
- ➔ Federal Minister for Planning Ahsan Iqbal proposes a 'global environment tax', targeting countries responsible for environmental pollution.
