

# Weekly Media Monitor

October 27th – November 2nd, 2025

This week's major news updates in Pakistan's energy and climate sectors:

- ➔ A study jointly conducted by the Policy Research Institute for Equitable Development (PRIED) and Transition Zero reveals that people of Pakistan have installed around 33 gigawatts of solar capacity on their own.
- ➔ The cost of Thar Coal Rail Connectivity Project has increased from 53 billion rupees to 90 billion rupees, mainly due to design revisions.
- ➔ Pakistan will benefit from a 250 million US dollar Green Climate Fund programme led by the Asian Development Bank (ADB) to strengthen climate resilience in glacier-fed regions vulnerable to floods, droughts and glacial melt.
- ➔ The federal Power Division reports that smart meters are being rolled out across Pakistan to cut costs, improve billing accuracy and enable real-time monitoring.
