

Weekly Media Monitor

December 1st - 7th, 2024

This week's major news updates in Pakistan's energy sector:

- Pakistan Foreign Renewable Energy Forum (PFREF), an entity representing foreign investors in the energy sector, writes to Army chief General Asim Munir to remove bureaucratic hurdles facing the installation of 13 wind and solar power projects which can produce 600 megawatts of electricity and can result in the investment of 600 million US dollars.
- The Asian Development Bank (ADB) announces to finance climate-resilient housing projects in countries, including Pakistan, that are vulnerable to climate change.
- Policymakers stress the importance to privatize state-owned electricity producers, Gencos), in order to reduce their portion in the circular debt.
- To expedite the replacement of costly thermal power plants, the federal Ministry of Planning, Development and Special initiatives (PDSI) proposes an increase in the tariff being offered to independent power producers interested in setting up solar power projects.

 Coal	 Oil & Gas	 Renewable Energy	 Energy & Finance	 Climate Change
