

Weekly Media Monitor

Nov 18th - Nov 24th, 2024

This week's major news updates in Pakistan's energy sector include:

- ➡ Truckers transporting coal from Balochistan to Punjab continue their protest over the lack of security and compensation for their vehicles damaged by violence and vandalism along the way.
- ➡ The Economic Coordination Committee (ECC) of the federal cabinet approves a Winter Package for electricity consumers, incentivizing them to increase the use of the national grid between mid-November and mid-February when electricity consumption drops dramatically.
- ➡ A task force headed by Deputy Prime Minister Ishaq Dar allows gas exploration and production firms to sell 35 percent of their gas directly to the private sector.
- ➡ A report by the Asian Development Bank estimates that Pakistan requires an investment of USD 390 billion to achieve a low-carbon energy transition by 2050.
- ➡ During a previously unscheduled five-day visit, an International Monetary Fund (IMF) mission to Pakistan stresses the need to continue policies aimed at fiscal and monetary tightening, revenue mobilization, and transferring greater social and development responsibilities to the provinces.
- ➡ The 29th Conference of the Parties (COP29) struggles to overcome a deadlock, mainly over the volume and nature of climate change finance to be provided by developed nations to developing ones.

 Coal	 Oil & Gas	 Renewable Energy	 Energy & Finance	 Climate Change
