

Weekly Media Monitor

November 20th - 27th, 2023

This week's major news updates in Pakistan's energy sector:

- The British High Commission launched a study to identify and mobilize private sector climate finance in Pakistan. The study aims at supporting Pakistan's actions for climate mitigation, adaptation and resilience.
- The Central Power Purchasing Agency (CPPA) sought to raise another 33 billion rupees for electricity distribution companies (Discos) through a massive 3.55 rupees increase per tariff.
- Gas consumers will have to pay a further 5 billion rupees so that a subsidized provision of gas could be ensured to two fertilizer plants as per a decision made by the Economic Coordination Committee (ECC) of the federal cabinet.
- Pakistan received four international bids for the supply of Liquefied Natural Gas (LNG) cargo in January 2024. The lowest of these bids offers to bring the cargo to Pakistan at 18.46 US dollars per unit of LNG.
