

Weekly Media Monitor

January 26th, 2026 – February 1st, 2026

This week's major news updates in Pakistan's energy and climate sectors:

- ➔ The federal power minister Sardar Awaiz Leghari withdraws an official order that stopped net-metering credits for solar consumers exporting electricity to the grid. He directs distribution companies (DISCOs) to restore credits within approved capacity limits.
- ➔ Pakistan's power sector circular debt rises by 223 billion rupees in the first five months of fiscal year 2025-26, reaching 1.837 trillion rupees by November 2025, even after the government raised 1.225 trillion rupees from commercial banks to contain it.
- ➔ The World Bank approves a 378.9 million US dollars loan for Pakistan's power transmission overhaul, with co-financing of 92.5 million US dollars from the Asian Infrastructure Investment Bank (AIIB) and 92.7 million dollars from the Islamic Development Bank (IsDB).
- ➔ Pakistan needs 565.7 billion US dollars by 2035 to meet its latest Nationally Determined Contributions targets, including 17 percent unconditional and 33 percent conditional carbon emission cuts, speakers noted at a business forum.
