

Weekly Media Monitor

May 26th - June 1st, 2025

This week's major news updates in Pakistan's energy and climate sectors:

- ➔ A recent study finds human-driven climate change caused about four billion people to endure 30 extra days of extreme heat from May 2024 to May 2025, underscoring rising risks from fossil fuel use.
- ➔ The Senate Standing Committee on Economic Affairs raises serious concerns over the alleged loss of 500 million rupees to the national exchequer in a project to lay transmission line for Dasso hydropower project.
- ➔ Oil and gas companies operating in Khyber Pakhtunkhwa complain of financial losses due to the curtailment of supply from them.
